

Letter of Recommendation

To whom it may concern

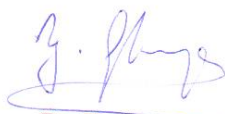

“Aries Catering Service” is a company I know since 5 years. They have extended their fine services to our institution on several occasions, including the high ranking visits of our Senior Vice President and most recently also the Board Member.

We were very excited with a pleasant and friendly atmosphere created during KfW Armenia Office inauguration in November 2003, and “Aries” deserves a strong word of recommendation for having contributed to that significantly.

As we are very pleased with “Aries”, we work exclusively with this catering company using their services on regular basis, because of high quality food and service they offer.

Therefore, I am sure to recommend “Aries” to other organizations or individuals. In my opinion it is the fine combination of high quality, good service and affordable prices that makes them attractive for any potential client.
