

## Peace Corps • Armenia

November 12, 1999

To Whom It May Concern:

I am very pleased to write a letter recommending ARIES CATERING to any individuals, local organization, and/or international agency which needs a varied, gastronomically delicious and efficient catering service. Peace Corps/Armenia has the honor of being the very first client of this catering enterprise which was established by Mr. Avetik Ghukasyan back in 1996. Since that time, I have attended multiple receptions and have always been pleasantly pleased to taste the delicious hors d'oeuvres and specialties of ARIES Catering. The presentation and service have been impeccable.

During our most recent Donor Fair at the Tekeyan Center, in which over a dozen international organizations were called upon to present their organizations to newly trained Peace Corps Volunteers, ARIES Catering fulfilled my highest expectations of a service of this nature.

I highly recommend those seeking a professional catering company to call upon Mr. Ghukasyan to use his services as a function planner.

Sincerely,

Sylva Etian  
Country Director
